

# THE ANTS PANTS

ESPRESSO

OUTSTANDINGLY GOOD COFFEE

## The Ants Pants Espresso

The Ants Pants Espresso is quite simply the best of the best. It's the bee's knees and the ducks nuts rolled into one. It is both outstanding and exceedingly good which means it goes straight to the pool room!

The Ants Pants is the ultimate locally roasted coffee being roasted in four separate locations around Australia. The South Coast and East Coast of Victoria, The Central Coast in New South Wales and the Sunshine Coast in Queensland - Any more local than that and we would have to roast at your place!

Delicate green beans, individually picked for their fine characters and aromas are hand roasted by our four roasters to create simply awesome tasting espresso and filter coffees.

## Where is Ants Pants Espresso?

You won't find The Ants Pants Espresso at any average Jo's picnic. No sir-e! You will only find our coffee served where people know their stuff, where quality is everything and where compromise is not an option. When it comes to The Ants Pants we will only be found at the best picnic at the park - the best spread in town!

## Blends

### Crackerjack

Crackerjack is a blend of Colombian and Honduras arabicas that result in a sweet taste perfectly balanced in milk with notes of cashew, toffee and lemon zest.

### Bonzer (Big Bang)

Bonzer is an intense full bodied coffee comprising high quality arabicas and robusta beans. Beans from Southern Colombia, Eastern Uganda, North Sumatra and South West India combine to present a pleasant and lingering taste with notes of dark toffee, maple syrup and candied orange.

### Stellar ( F060)

Stellar is a medium bodied 100% arabica coffee comprised of beans from Eastern Uganda, South Central Ethiopia and Northern Sumatra. It presents as a medium blend with lemon acidity from Ethiopia and an almond and chocolate collaboration of Uganda and Sumatran origins with a nutty chocolatey finish in milk.

## Training

A good ant knows exactly what they are doing, where they are going and how to deal with the precious cargo they are carrying. Any good barista too must intimately know their craft, their machine and their coffee. Here at The Ants Pants Espresso we deliver in depth tailored barista training with one simple mantra in mind – to put your baristas at the top of the ant hill!

## Service

At The Ants Pants Espresso we believe that to do things right you have to do it yourself! That's why we have a whole colony of ants to look after you. Our worker ants will deliver your product on time every time, whilst our soldier ants will oversee your coffee production and barista training to make sure everything is as it should be. Slave ants will attend to every preventative service and breakdown 24 / 7 / 365 to make sure your machinery is always on song. As for our Queen ants in sales and admin - well let's just say that they are the best!

## Recycling

Nature is a finely tuned beast, operating in perfect harmony and balance. Our Sustainability Program is aimed at keeping us at one with our environment. So like good ants we will gather your coffee boxes, your plastic coffee, chocolate and chai bags, and together with your spent coffee bring everything back on our backs to feed the colony of human existence.

We are also committed to reducing plastic debris in our environment. At The Ants Pants Espresso we don't supply plastic lined takeaway cups or plastic lids, only single wall cups made with paper from sustainable plantations together with our compostable lids that both breakdown to nothing. We account for every crumb and are committed not to leave any ant trails behind!
